

ERIK ALEXIS HERNÁNDEZ GUERRA

Frontend Developer · React · Next.js · TypeScript

erik21guerra8@gmail.com | +52 720 695 6460 | Estado de México, México | linkedin.com/in/erik-guerra21

PROFESSIONAL PROFILE

Frontend Developer focused on building visually appealing and, above all, user-friendly interfaces. Building web projects since 2021 with React, Next.js, and TypeScript. Experience in administrative systems for municipal government, platforms with AI integration (OpenAI), and tools using the WhatsApp Business API. Detail-oriented and committed: I don't rest until the work is 100% done. Available for remote opportunities in Mexico, LATAM, and international roles hiring Spanish-speaking developers.

PROFESSIONAL EXPERIENCE

Frontend Developer

June 2021 – Present

Freelance / Soutbug · Remote

Freelance web development focused on frontend with React, Next.js, and TypeScript. I build user interfaces for administrative systems, dashboards, and custom applications. I work under the name Soutbug (a project in formation with another developer), where my role covers the frontend side (UI, API integration, user experience), while the backend is handled by another developer on the team.

Frontend Developer

October 2024 – November 2024

Banco PagaTodo · On-site · Mexico City

Development and maintenance of web interfaces for internal financial products. Collaboration with product and backend teams, working with a modern frontend stack (React and JavaScript).

KEY PROJECTS

Water Billing & Collections System — Coacalco

Dec 2024 – Present

Next.js 14 · TypeScript · Tailwind CSS · REST API

Administrative system for the municipal water utility of Coacalco, currently in use by municipal staff. As the Frontend Developer responsible for the interface, I built the production modules: login with token-based authentication and role management, cashier billing module, and payment receipt generation and printing. In development: administrative tables, search, reports, and map-based modules.

Online Course Platform with Membership Management

2023 (6+ months)

React · TypeScript · WhatsApp Business API · REST API

Subscription-based online education platform with admin panels for managing users, courses, and content. Features: membership plans with differentiated content access, automatic renewal, email notifications, and an interface for mass promotional campaign delivery via WhatsApp Business API (Meta) with recipient selection.

Real-Time Support Chat with AI

2022 (3–4 months)

React · JavaScript · REST API · OpenAI

Web-based support chat application for a small business, featuring live messaging between customer and agent, typing indicator, new message notifications, file and image upload support, and integration with a conversational bot powered by OpenAI that handles basic inquiries before escalating to a human agent.

TECHNICAL SKILLS

Frameworks & Libraries: React.js, Next.js **Languages:** TypeScript, JavaScript, HTML5, CSS3

Styling & UI: Tailwind CSS, Responsive Design, UX/UI **Integrations:** REST APIs, OpenAI, WhatsApp Business API

Tools: Git, GitHub **Concepts:** SPA, OOP, Databases, API Testing

EDUCATION

Technical Degree in Programming

CBTIS 227 · 2017 – 2020

LANGUAGES

Spanish — Native **English** — Basic-Intermediate (improving)

SOFT SKILLS

Attention to detail · Problem-solving · Teamwork · Commitment · Honest communication · Self-taught learner
